INNOVATIVE GERMAN QUALITY

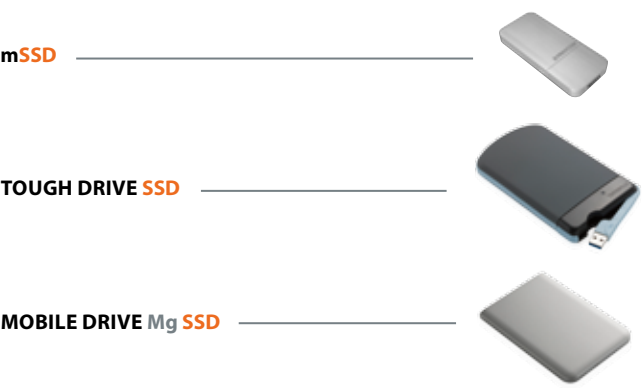

**Products 2014**

Freecom is celebrating its 25 anniversary. Freecom has been an innovator of external storage solutions since 1989 developing and marketing high-quality, innovative storage solutions that meet the needs of consumers, professional users and small businesses. All Freecom products are designed, engineered and certified in Germany according to the highest quality standards to guarantee customer satisfaction.

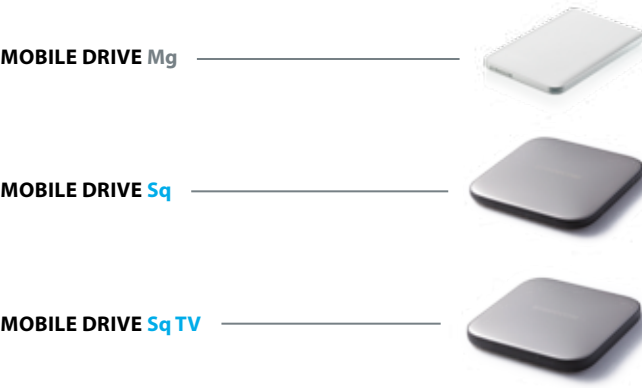

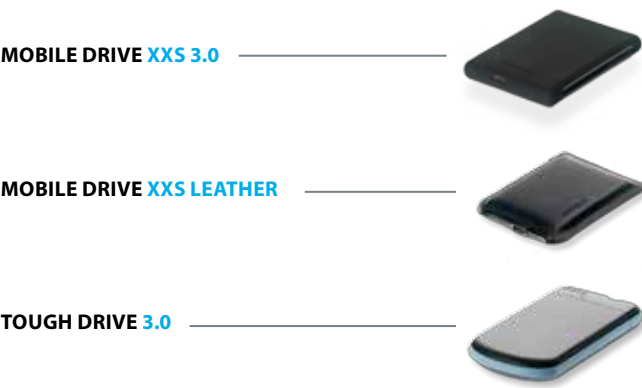

Solid State Drives page 3

The Freecom Solid State Drives transform your storage experience with incredibly fast data access time. Offering users data transfer speeds of up to 415MB/s, the SSD has no moving parts and is therefore capable of accessing any location on the drive with equally fast speed and precision. Our bestseller Tough Drive and the Mobile Drive Mg with its Magnesium enclosure are now available with SSD technology. The star in our SSD assortment is the Freecom mSSD. It's very hard to resist this sophisticated new product with its small form factor, brushed aluminium enclosure and incredible transfer speed.

Mobile Hard Drives page 5

The Freecom mobile hard drives are designed with you, the traveling consumer, in mind. We offer a full range from our high quality and cost-effective Mobile Drive XXS to our uniquely designed Mobile Drive Sq and the highly trusted, shock resistant Tough Drive. And by using a USB interface, they can easily be connected to modern TVs as well as laptops and desktop computers. We have the portable drive for every user scenario.

Desktop Hard Drives page 8

The amount of data that we all collect is growing daily. The digital photos we take of our family, the music of our favourite band we download, the documents we work on... Where to store all this important data? Look no further. Our desktop hard drives can store large amounts of data. Large enough to put your life on. Ideal for storing your backups. Easy to install and use - without compromising on quality. What more could you wish for?

Network Hard Drives page 9

These days almost everybody has a computer network - not only at the office but also at home. So what about one central location to store data on? The Freecom Network Drive XS fills that need. Your data easily accessible and sharable. Easy to set-up, manage and use. Like it's meant to be!

Accessories page 9

Our hard drive product line-up is not complete without clever and practical accessories. All designed and developed with one thing in mind: ease-of-use. From Bluetooth® Speakers to multi-interface docking stations for your internal hard drive – we know how to make your digital life just that little bit easier.

Optical Drives page 13

Gone are the days where it took 30 minutes to burn a CD or DVD. The Freecom optical drives bring you the fastest writing speed currently available. For netbook and notebook users we have the USB powered Mobile Blu-ray ReWriter and the Mobile DVD ReWriter - ideal for data archiving. Fast and reliable, no compromises on quality but still very affordable. A true winner!

USB Flash page 14

The compact Data Bar USB Sticks make it easy to carry your most important files with you wherever you go. Its aluminum design makes a smart impression and it is also conveniently small. You carry your files around in your bag or even in your pocket – the Data Bar USB Drives don't mind. They are always at your service!

mSSD MINI SOLID STATE DRIVE / 2.5" / USB 3.0

Small, ultra lightweight and extremely fast!

It's very hard to resist this sophisticated design with its brushed aluminium enclosure and weight of only 29g. The new mSSD technology combines a small form factor with incredible transfer speed. The sleek and stylish mSSD is equipped with the latest USB 3.0 technology and offers 256GB SSD storage. The extremely fast mSSD chipset and software pre installed makes life easy and safe for its owner. Anyone copying information between devices appreciates good performance in speed and this device won't make anyone disappointed.

\*The actual speed depends on the file size and computer performance and OS.

No power adapter needed

**PC** Plug & Play  
For any PC - fast and easy

## FLOPPY DISK DRIVE

FLOPPY DISK DRIVE / 3.5" / USB

Still one of the most used media types

As computers and notebooks are no longer equipped with a floppy drive, Freecom is offering the USB Floppy Disk Drive. Small files like drivers, software updates, patches for operating systems, anti-virus updates and boot-diskettes are still being shipped on floppy disks. Also, a lot of people still have old text files, spreadsheets, pictures etc saved on floppy disks. So there will always come a time when you need a floppy drive for a software update, to access some of your old data, or you need a diskette to quickly save a small file on.

## MOBILE BLU-RAY REWRITER

SLIMLINE BD-R(E) DRIVE / DVD RW DRIVE / USB 3.0

Mobile Blu-ray Rewriter

For recording large data archives or high definition content a DVD may not be enough. With HD becoming more and more mainstream, you require a larger capacity disc. Enter Blu-ray - Blu-ray media can hold up to 50GB data, more than enough to store HD movies or large data archives. Upgrade your computer to the latest optical drive technology with the external Mobile Blu-ray Rewriter. Next to recording Blu-ray discs it is also a standard DVD rewriter.

Freecom recommends  Verbatim CD / DVD / Blu-ray recordable media.

## MOBILE DVD REWRITER

SLIMLINE DVD RW DRIVE / USB 3.0

The perfect optical storage upgrade

More and more notebook vendors choose to leave the optical drive out of their notebooks. CD's and DVD's are however one of the most commonly used media types in the world. Freecom has the solution. The Mobile DVD Rewriter is a super small external CD/DVD drive, barely larger than a CD and therefore easy to carry with you.

Freecom recommends  Verbatim CD / DVD recordable media.

16GB	3.200	10.660	16
8GB	1.600	5.330	8
4GB	800	2.660	4

*\* Definitions: 1GB = 1000MB – 1 MP3 song = approx. 5MB / 1 JPEG photo = approx. 1.5MB / 1 DVD movie = approx. 4.5GB / 1Xvid/DivX movie = approx. 1GB. Some of the hard drive capacity is used for pre-loaded software, formatting and other functions, and thus is not available for data storage. As a result, your operating system may report fewer gigabytes/terabytes.*

The best service & support

In case you have questions or need technical assistance for your Freecom product, you can be sure that you receive the best possible support from us.

- Our service centers are available via telephone (local phone rates) or e-mail, during standard office hours
- No matter if your product is in or out of warranty – we will always assist you
- We use an unmatched RMA system ensuring hassle-free repair or replacement
- Free shipping to and from our repair center (EU only)
- We always try to retrieve your data in case the storage device itself is not damaged
- You receive regular status updates and tracking information per e-mail

25 Years of storage experience

Freecom has been an innovator of external storage solutions since 1989.

- Some milestones:
- 1989 - Introduction of parallel port tape streamers
  - 1997 - Introduction of “multi-connect” interface technology
  - 2003 - Introduction of the world’s first external hard drive with synchronization button
  - 2006 - Introduction of the Tough Drive, the first shock resistant external mobile hard drive
  - 2007 - Introduction of the world’s smallest 2.5” mobile solution, the Mobile Drive XXS
  - 2009 - Introduction of the Hard Drive XS 3.0, the world’s first external USB 3.0 hard drive
  - 2010 - Introduction of the Mobile Drive Mg, the first mobile hard drive in magnesium enclosure
  - 2011 - Introduction of unique meta-organic designed Mobile Drive Sq
  - 2012 - Introduction of the Mobile Drive Sq for TV and USB Recording
  - 2013 - Introduction of the Tough Drive SSD, one of the world’s fastest SSD
  - 2014 - Introduction of the mSSD

Find all milestones on [www.freecom.com/Company/Milestones](http://www.freecom.com/Company/Milestones).

Responsible FreeCOM

Freecom strongly believes it is our moral duty to execute our business with creating the least possible strain on our environment.

- A few examples:
- Use as many recycled raw materials as possible
  - We have invested R&D resources in perfecting the USB powering technology, which resulted in low power consumption products and eliminating the need to ship our mobile hard drives with external power supplies
  - Our hard drives are shipped with the ‘Green Button’ application which controls the power consumption of your Freecom hard drive
  - Limit the amount of printed user-manuals; these are pre-installed in digital format on the hard drive itself
  - Reduce our packaging sizes as much as possible, thereby minimizing the amount of waste

Global footprint

With branch offices in EUMEA, APAC and AMERICAS, Freecom has a strong global presence. The acquisition of Freecom by Mitsubishi Kagaku Media in 2009 has strengthened Freecom’s global footprint. We make use of a global distribution and logistics network as well as combining strengths in developing new and exciting products. Being part of Mitsubishi Chemical Holdings Group also means we follow and adhere to our mother company’s long term strategy and vision, summarized in the ‘Kaiteki’ principle. ‘Kaiteki’, which traditionally means ‘comfort’ or ‘ease’ in Japanese, represents the global quality of life that will be made possible through sustainable technologies and through breakthrough scientific advances in human healthcare.

Outstanding design

Since storage products are now a part of our everyday life, we believe that, next to obviously doing the job that they were created for, they should also look stunning, anywhere. Freecom always teams up with up and coming industrial designers to create functional products that stand out from the crowd. Some of the designers we work with include: Blitzen (Berlin, Germany), Sylvain Willenz (Brussels, Belgium), Arman Emami (Berlin, Germany), FLEX / the INNOVATIONLAB® (Delft, The Netherlands) and Niels in Vorm & EigenID (Rijswijk, The Netherlands).

Make your digital life easier

Every Freecom hard drive is shipped with software tools and apps to make your digital life just that little bit easier!

- Backup software which ensures that all your files are safely backed up
- Energy saving ‘Green Button’ app, which controls the power consumption of your drive
- FHD formatter app, for easy re-formatting of your hard drive, should you want to do so
- NAS to configure the basic settings of your device, smart and simple
- FHD Eraser and FHD Info

Freecom always strives to be at the forefront of any new technology. We will keep on adding new software tools and apps - such as Online Backup and Private Cloud Software - to our products to make your digital life always that little bit easier!

*Depending on type of HDD not all of the above listed software titles may be present on the drive.*

## About Freecom

Freecom has a twenty five-year history in developing and marketing high-quality, innovative storage solutions that meet the needs of consumers, professional users and small businesses.

All Freecom products are designed, engineered and certified in Germany according to the highest quality standards to guarantee customer satisfaction. Our in-house technical development process, the use of the highest quality components and German product inspection standards ensure superior quality and reliability.

To meet the high expectations of professional users Freecom products are delivered with extensive warranty and unlimited free helpdesk support.

Freecom is a subsidiary of Mitsubishi Kagaku Media owned by Mitsubishi Chemical Corporation, one of the world's largest chemical companies, which invests heavily in R&D across many diverse sectors. The company's operating principles are founded on helping people to live in a healthy, comfortable and sustainable way.

Freecom has regional headquarter organizations for EMEA, APAC and America, and possesses offices in many countries around the world.

## Need assistance?

Freecom offers free unlimited helpdesk support. In case you have a question about the use of one of our products, need information about other Freecom products or need technical assistance, please contact the Freecom Service Center for your country.
